Description

The equip 128963 USB-C 4-Port USB 3.2 Gen 1 Hub is a versatile peripheral device that expands the connectivity options of your USB-C enabled computer or laptop.

With four high-speed USB 3.2 Gen 1 ports, it allows you to connect a variety of USB peripherals like external hard drives, keyboards, mice, and more simultaneously.

This hub leverages the USB-C interface, ensuring faster data transfer rates of up to 5 Gbps while also supporting power delivery for charging devices. Its compact and portable design makes it perfect for on-the-go professionals or anyone looking to maximize their USB-C device's connectivity capabilities, making it a valuable addition to any setup.
