## Toucan night light - white noise

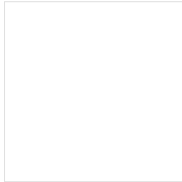

### THE COMPANION OF YOUR NIGHTS

This toucan night light watches over your sleep, and ensures peaceful nights for young and old alike.

Adjust the light manually, between 20% and 100% brightness, or choose the "breathing" mode which allows you to obtain a graduated light, which shines then fades. This graduation repeated at a constant rhythm will help you fall asleep peacefully.

Add relaxing sounds to this luminous ambiance. The toucan allows you to play 6 different white noises: these sounds having the same sound intensity over a whole frequency range thus produce a constant sound, which has a relaxing and soothing effect. They therefore promote relaxation and falling asleep. The toucan also has a children's melody like a "music box".

A timer allows you to program the automatic shutdown of the speaker, after 30 minutes. Control all the light and sound functions remotely using the included remote control. The night light has a battery life of 7 hours at maximum brightness, and can last up to 24 hours of lighting depending on the brightness chosen. This JOY night light will bring the natural and soothing touch you need!

### BOX CONTENTS

- 1 x Night light

- 1 x charging cable

- 1 x instructions

## Characteristics

22 x 11,5 x 11
